Campus Hackathon: Ideas to Impact

Teams sprinted through 24 hours to prototype assistive tools for accessibility, culminating in demos that impressed judges with practical, human-centered solutions.

Students collaborating at a hackathon

Late-night brainstorming during the final build window.

Tech Talk Recap: Building with WebAssembly

Guest engineers unpacked real-world patterns for running high-performance modules in the browser, highlighting tooling, debugging tips, and deployment gotchas.

Speaker	Topic
Riya Menon	Optimizing hot paths with WASM
Karthik Iyer	Packaging Rust for the web
